## Demonstrating Grid for Business BEinGRID Industry Days

### Grid Solutions for YOUR Business

This major event is addressed to Grid experts and those interested in learning how Grid is THE solution for their business.

The BEinGRID Industry Days will demonstrate real-world applications of Grid in a wide range of sectors including finance, supply chain management, media, leisure and environmental sciences, among others. These practical examples are complemented by internationally recognized experts in Grid who have a clear business approach.

Sectors will be highlighted, showcasing Grid solutions through demos of successful BEinGRID Business Experiments, guest-speakers keynotes, success stories from the software and services industry, and roundtables.

### About BEinGRID

BEinGRID, Business Experiments in GRID, is the European Union's largest integrated project funded by the Information Society Technologies (IST) research, part of the EU's sixth research Framework Programme (FP6). The BEinGRID consortium is composed of 96 partners who are running 25 Business Experiments designed to implement and deploy Grid solutions in industrial key sectors.
