2021 – 2027

## HE CL4 SPACE TIPS FOR PROPOSERS

Deutschsprachiger Informationstag – ONLINE  
30 November 2022  
Birgit Blasch, DHoU HaDEA Space Research

# Scope

---

## HORIZON-CL4-2023-SPACE-01

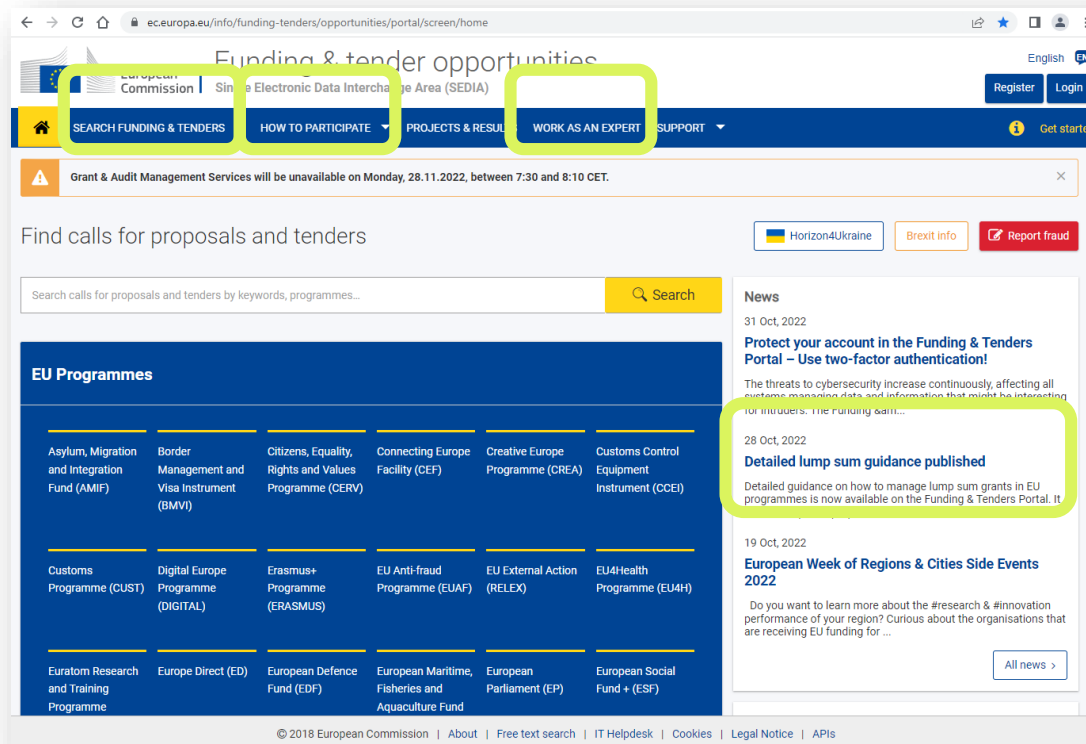

- Where to find information
- How to build a high-quality proposal
- How to successfully submit a proposal
- Special features of the 2023 Space call

# Where to find information

- Funding & Tender Portal

- including a dedicated page on lump sums - with e.g.:

# Funding & Tenders portal

- All participants applying for EU funding must register their organization in the [Participant Register](#) on the Funding & Tenders Portal
- Application process

The application process is represented by a large green arrow pointing right, containing four sequential steps in rounded rectangular buttons: "Find a Call", "Check conditions for funding", "Find partners", and "Submit a proposal".

Below the arrow is a screenshot of the Funding & Tenders Portal interface. The interface is divided into several sections:

- Search and Filters:** A search bar with "Type your Keywords..." and a magnifying glass icon. Below it are checkboxes for "Match whole words only", "GRANTS", and "TENDERS".
- Submission status:** A section with three status categories: "Forthcoming (1)", "Open for submission (70)" (highlighted with a yellow box), and "Closed (1080)".
- Programming period:** A dropdown menu with "Horizon Europe (HORIZON)" selected and highlighted with a yellow box.
- Mission:** A dropdown menu with "Select a Mission...".
- Funding and tenders (1151):** A list of funding opportunities. The first entry is "Rapid reconfigurable production process chains (Made in Europe Partnership) (IA)" with details: Programme: Horizon Europe (HORIZON), Type of action: HORIZON Innovation Actions, Opening date: 12 October 2021, Status: Closed, Deadline model: single-stage, Deadline date: 30 March 2022 17:00:00 Brussels time. The second entry is "Intelligent work piece handling in a full production line (Made in Europe Partnership) (RIA)" with details: Programme: Horizon Europe (HORIZON), Type of action: HORIZON Research and Innovation Actions, Opening date: 12 October 2021, Status: Closed, Deadline model: single-stage, Deadline date: 30 March 2022 17:00:00 Brussels time. The third entry is "Circular flows for solid waste in urban environment (Processes4Planet Partnership) (IA)" with details: Programme: Horizon Europe (HORIZON), Type of action: HORIZON Innovation Actions, Opening date: 12 October 2021, Status: Closed, Deadline model: single-stage, Deadline date: 30 March 2022 17:00:00 Brussels time.
- General information sidebar:** A vertical sidebar on the right with a "Need help?" button and a list of menu items: "General information", "Topic description", "Destination", "Conditions and documents" (highlighted with a yellow box), "Submission service", "Topic related FAQ", "Get support", and "Call updates" (highlighted with a yellow box).

The European Commission logo is visible in the bottom right corner.

# Funding & Tenders portal

- Online manual

The screenshot displays the top navigation bar of the Funding & Tenders portal, which includes links for 'SEARCH FUNDING & TENDERS', 'HOW TO PARTICIPATE', 'PROJECTS & RESULTS', 'WORK AS AN EXPERT', and 'SUPPORT'. Below the navigation bar, there are three orange warning banners. The first banner states: 'Due to a system maintenance Submission of tenders services applications will be unavailable Wednesday, 16/11/2022 from 17:00 until 18:00 (Brussels time). We apologize for the inconvenience caused.' The second banner states: 'Due to technical maintenance, Funding and Tenders Portal services may not be available on Wednesday 16th of November 2022 from 19:00 to 23:55. We apologize for the inconvenience caused.' The third banner states: 'The document repository system will be under maintenance and all operations on documents will not be possible on Wednesday 16.11.2022, between 19:00 and 23:55 CET. Please refrain from launching any document-related process, since these will not work and will have to be restored by the Serv'. Below the banners, the 'Guidance & Manuals' section is visible. On the left, there is a sidebar menu with icons and text for 'Support overview', 'Guidance & Manuals', 'FAQs', 'Helpdesk & Support Services', and 'Support videos'. The main content area has tabs for 'Grants' and 'Tenders'. Under the 'Tenders' tab, there is a list of reference documents. The 'Online Manual' entry is highlighted with a yellow border and contains the text: 'Step-by-step online guide through the Portal processes from proposal preparation and submission to reporting on your on-going project. Valid for all 2021-2027 programmes.' Other entries include 'H2020 Online Manual' (valid for Horizon 2020), 'IT How to' (IT support guide with step-by-step walkthroughs and videos), and 'Glossary' (A list of funding and tender definitions).

### General conditions relating to this call

<b>Admissibility conditions:</b>	The conditions are described in General Annex A.
<b>Eligibility conditions:</b>	The conditions are described in General Annex B.
<b>Financial and operational capacity and exclusion</b>	The criteria are described in General Annex C.
<b>Award criteria</b>	The criteria are described in General Annex D.
<b>Documents</b>	The documents are described in General Annex E.
<b>Procedure</b>	The procedure is described in General Annex F.
<b>Legal and financial set-up of the Grant Agreements</b>	The rules are described in General Annex G.

<sup>285</sup> Of which EUR 1.00 million from the NGEU Fund Source.

<sup>286</sup> Of which EUR 1.00 million from the NGEU Fund Source.

<sup>287</sup> Of which EUR 1.50 million from the NGEU Fund Source.

<sup>289</sup> Of which EUR 1.00 million from the NGEU Fund Source.

<sup>290</sup> Of which EUR 10.00 million from the NGEU Fund Source.

Conditions at call and at topic level  
Expected outcome of the topic  
Scope of the topic

Compliance and quality of proposals to meet all these elements will be checked partly in the evaluation process, partly during grant agreement preparation.

Read carefully the reference or guidance documents as indicated!

Specific conditions	
<b>Expected EU contribution per project</b>	The Commission estimates that an EU contribution of between EUR 2.00 and 2.50 million would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.
<b>Indicative budget</b>	The total indicative budget for the topic is EUR 5.00 million.
<b>Type of Action</b>	Research and Innovation Actions
<b>Eligibility conditions</b>	<p>The conditions are described in General Annex B. The following exceptions apply:</p> <p>If projects use satellite-based earth observation, positioning, navigation and/or related timing data and services, beneficiaries must make use of Copernicus and/or Galileo/EGNOS (other data and services may additionally be used).</p> <p>In order to achieve the expected outcomes, and safeguard the Union's strategic assets, interests, autonomy, and security, it is important to avoid a situation of technological dependency on a non-EU source, in a global context that requires the EU to take action to build on its strengths, and to carefully assess and address any strategic weaknesses, attainment of its ambitions. For this reason, participation is limited to legal entities established in Member States, Norway, Iceland and the United Kingdom. The eligibility of entities established in the United Kingdom to participate is conditional upon the following: (i) the United Kingdom is associated to Horizon Europe, and (ii) the United Kingdom's equivalent space calls are published and open to the EU entities on a reciprocal basis." Both conditions must be fulfilled on the date of the opening of this topic for submission.</p> <p>For the duly justified and exceptional reasons listed in the paragraph</p> <p>the Union and its Member States, entities established in an eligible country listed above, but which are directly or indirectly controlled by a non-eligible country or by a non-eligible country entity, may not participate in the action unless it can be demonstrated, by means of guarantees provided by their eligible country of establishment, that their participation in the action would not negatively impact the Union's strategic assets, interests, autonomy, or security. The guarantees shall in particular substantiate that, for the purpose of the action, measures are in place to ensure that:</p> <ol style="list-style-type: none"> <li>control over the applicant legal entity is not exercised in a manner that restrains or restricts its ability to carry out the action and to deliver results, that imposes restrictions concerning its infrastructure, facilities, assets, resources, intellectual property or know-how needed for the purpose of the action, or that undermines its capabilities and standards necessary to carry out the action;</li> <li>access by a non-eligible country or by a non-eligible country entity to sensitive information relating to the action is prevented, and the employees or other persons involved in the action have a national security clearance issued by an eligible country, where appropriate;</li> <li>ownership of the intellectual property arising from, and the results of, the action remain within the recipient during and after completion of the action, are not subject to control or restrictions by non-eligible countries or non-eligible country entity, and are not exported outside the eligible countries, nor is access to them from outside the eligible countries granted, without the approval of the eligible country in which the legal entity is established.</li> </ol>
<b>Technology Readiness Level</b>	Activities are expected to achieve TRL 5-6 by the end of the project – The reference TRL definition is the ISO 16290:2013 applicable to the space sector.
<b>Legal and financial set-up of the Grant Agreements</b>	<p>The rules are described in General Annex G. The following exceptions apply:</p> <p>Eligible costs will take the form of a lump sum as defined in the document of 17 July 2021 concerning the rules on lump sum contributions under the Horizon Europe Programme – the Framework Programme for Research and Innovation (2021-2027) – and in actions under the Research and Training Programme of the European Atomic Energy Community (2021-2025).<sup>302</sup></p>
<b>Security Sensitive Topics</b>	background and/or producing of security sensitive results (EUCI and SEN). Please refer to the related provisions in section B Security – EU CLASSIFIED AND SECURITY SENSITIVE INFORMATION OF THE GENERAL AGREEMENT.

# Admissibility, eligibility and additional requirements

## *Admissibility requirements*

- Applications must be **complete** and contain all parts and mandatory annexes and supporting documents.
- Applications must be **readable, accessible and printable**.
- Applications must include a **plan for the exploitation and dissemination of results including communication activities** (n/a for applications at the first stage of two-stage procedures or unless otherwise provided in the specific call conditions).
- Specific **page limits** per type of action normally apply (specified in the topic conditions and controlled by IT tool).

## *Eligibility requirements*

- **Eligible activities** are the ones described in the call conditions.
- **Minimum number of partners** as set out in the call conditions (at least one independent legal entity established in a MS, and, at least two other independent legal entities established either in a MS or AC).
- For calls with deadlines in 2022 and onwards participants that are public bodies, research organisations or higher education establishments from Member States and Associated countries must have a **gender equality plan** in place.
- **Other criteria may apply on a call-by-call basis** as set out in the call conditions. In few cases, the call conditions in the topic can modify the interpretation of criteria.

# Activities eligible for funding

**Eligible activities are the ones described in the call and topic conditions.** The types of action include different activities eligible for funding.

Activities must **focus exclusively on civil applications** and **must not**:

- aim at human cloning for reproductive purposes;
- intend to modify the genetic heritage of human beings which could make such changes heritable (except for research relating to cancer treatment of the gonads, which may be financed);
- intend to create human embryos solely for the purpose of research, or for the purpose of stem cell procurement, including by means of somatic cell nuclear transfer;
- lead to the destruction of human embryos.

# Who is eligible for funding?

## ***EU COUNTRIES***

- Member States (MS) including their outermost regions.
- The Overseas Countries and Territories (OCTs) linked to the MS.

## **NON-EU COUNTRIES**

- Countries associated to Horizon Europe (AC).
- Low and middle income countries: See [HE Programme Guide](#).
- Other countries when announced in the call or exceptionally if their participation is essential.

## **SPECIFIC CASES**

- Affiliated entities established in countries eligible for funding.
- EU bodies
- International organisations (IO):
  - International European research organisations are eligible for funding.
  - Other IO are not eligible (only exceptionally if participation is essential)
  - IO in a MS or AC are eligible for funding for Training and mobility actions and when announced in the call conditions.

# Restrictions to the eligibility to participate

*Legal basis: HE **Article 22.5**, see also **Work Programme General Annex B***

- At the level of some work programme topics (e.g. in HORIZON-CL4-2023-SPACE-01)
- In non-dependence and strategic autonomy context, to guarantee the protection of the strategic interests of the Union and its Member States, **participation may be limited to legal entities established in Member States and a few listed other countries.**
- These entities **must not be directly or indirectly controlled by a non-eligible country or by a non-eligible country entity**
- If this is the case, there may be a possibility of **guarantees** provided by their eligible country of establishment, that their participation to the action would not negatively impact the Union's strategic, assets, interests, autonomy, or security.

→ see **Declaration on Ownership and Control**

# Submission System – Add participants

- Add partners using the organisation name or PIC reference; 
- The requirements for a minimum number of participants are specific for each call. A message specifying the Consortium Eligibility requirements will be displayed;
- In most cases (RIA/IA), topics require at least two other independent legal entities established either in a MS or AC;

Buttons: Add Partner +, Add Associated partner +, SAVE, SAVE AND GO TO NEXT STEP, NEXT

**i** In this step, the coordinator can manage and review the participants.  
Note: The changes will be applied only after you click the "Save Changes" button.

**!** Call requires at least 3 participant(s) from different EU member states and associated countries, currently you have 2.

Number of participants: 3 **i**

# Submission System - Create a proposal

- Proposals must be submitted electronically via the [Funding & Tenders Portal Electronic Submission System](#). Paper or e-mail submissions are NOT possible; →
- Proposals must be **complete**, i.e. include all documents and annexes (if required), using the templates provided in the Submission System; →

The screenshot shows two main sections of the Submission System interface. The top section is titled 'Download Part B templates' and features a download icon and a button labeled 'Download part B templates'. The bottom section is titled 'Support & Helpdesk' and contains four buttons: 'Online Manual', 'IT How To', 'IT Helpdesk', and 'FAQ'. Below these buttons is a 'Service Desk' section with an email address 'EC-FUNDING-TENDER-SERVICE-DESK@ec.europa.eu' and a phone number '+32 2 29 92222'.

The screenshot shows a vertical list of menu items. The items are: 'General information', 'Topic description', 'Destination', 'Conditions and documents', 'Submission service', 'Topic related FAQ', 'Get support', and 'Call updates'. The 'Submission service' item is highlighted with a yellow border.

# Application Template Part B instructions

## 1. Excellence #@REL-EVA-RE@#

### Excellence – aspects to be taken into account.

- Clarity and pertinence of the project's objectives, and the extent to which the proposed work is ambitious, and goes beyond the state of the art.
- Soundness of the proposed methodology, including the underlying concepts, models, assumptions, interdisciplinary approaches, appropriate consideration of the gender dimension in research and innovation content, and the quality of open science practices, including sharing and management of research outputs and engagement of citizens, civil society and end users where appropriate.

⚠ The following aspects will be taken into account only to the extent that the proposed work is within the scope of the work programme topic.

### 1.1 Objectives and ambition #@PRJ-OBJ-PO@# [e.g. 4 pages]

- Briefly describe the objectives of your proposed work. Why are they pertinent to the work programme topic? Are they measurable and verifiable? Are they realistically achievable?
- Describe how your project goes beyond the state-of-the-art, and the extent the proposed work is ambitious. Indicate any exceptional ground-breaking R&I, novel concepts and approaches, new products, services or business and organisational models. Where relevant, illustrate the advance by referring to products and services already available on the market. Refer to any patent or publication search carried out.
- Describe where the proposed work is positioned in terms of R&I maturity (i.e. where it is situated in the spectrum from 'idea to application', or from 'lab to market'). Where applicable, provide an indication of the Technology Readiness Level, if possible distinguishing the start and by the end of the project.

⚠ Please bear in mind that advances beyond the state of the art must be interpreted in the light of the positioning of the project. Expectations will not be the same for RIAs at lower TRL, compared with Innovation Actions at high TRLs.

#@PRJ-OBJ-PO@#

### 1.2 Methodology #@CON-MET-DM@# #@COM-PL-CP@# [e.g. 14 pages]

- Describe and explain the overall methodology, including the concepts, models and assumptions that underpin your work. Explain how this will enable you to deliver your project's objectives. Refer to any important challenges you may have identified in the chosen methodology and how you intend to overcome them. [e.g. 10 pages]

⚠ This section should be presented as a narrative. The detailed tasks and work packages are described below under 'Implementation'.

⚠ Where relevant, include how the project methodology complies with the 'do no significant harm' principle as per Article 17 of Regulation (EU) No 2020/852 on the establishment of a framework to facilitate sustainable investment (i.e. the so-called 'EU Taxonomy Regulation'). This means that the methodology is designed in a way it is not significantly harming any of the six environmental objectives of the EU Taxonomy Regulation.

⚠ If you plan to use, develop and/or deploy artificial intelligence (AI) based systems and/or techniques you must demonstrate their technical robustness. AI-based systems or techniques should be, or be developed to become:

- technically robust, accurate and reproducible, and able to deal with and inform about possible failures, inaccuracies and errors, proportionate to the assessed risk they pose
- socially robust, in that they duly consider the context and environment in which they operate
- reliable and function as intended, minimizing unintentional and unexpected harm, preventing unacceptable harm and safeguarding the physical and mental integrity of humans

• able to provide a suitable explanation of their decision-making processes, whenever they can have a significant impact on people's lives. Describe any national or international research and innovation activities whose results will feed into the project, and how that link will be established; [e.g. 1 page]

• Explain how expertise and methods from different disciplines will be brought together, and integrated in pursuit of your objectives. If you consider that an inter-disciplinary approach is unnecessary in the context of the proposed work, please provide a justification. [e.g. 1/2 page]

• For topics where the work programme indicates the need for the integration of social sciences and humanities, show the role of these disciplines in the project or provide a justification if you consider that these disciplines are not relevant to your proposed project. [e.g. 1/2 page]

• Describe how the gender dimension (i.e. sex and/or gender analysis) is taken into account in the project's research and innovation content [e.g. 1 page]. If you do not consider such a gender dimension to be relevant in your project, please provide a justification.

⚠ Note: This section is mandatory except for topics which have been identified in the work programme as not requiring the integration of the gender dimension into R&I content.

⚠ Remember that that this question relates to the content of the planned research and innovation activities, and not to gender balance in the teams in charge of carrying out the project.

⚠ Sex and gender analysis refers to biological characteristics and social/cultural factors respectively. For guidance on methods of sex / gender analysis and the issues to be taken into account, please refer to [https://ec.europa.eu/info/news/gendered-innovations-2-2020-nov-24\\_en](https://ec.europa.eu/info/news/gendered-innovations-2-2020-nov-24_en)

• Describe how appropriate open science practices are implemented as an integral part of the proposed methodology. Show how the choice of practices and their implementation are adapted to the nature of your work, in a way that will increase the chances of the project delivering on its objectives [e.g. 1 page]. If you believe that none of these practices are appropriate for your project, please provide a justification here.

⚠ Open science is an approach based on open cooperative work and systematic sharing of knowledge and tools as early and widely as possible in the process. Open science practices include early and open sharing of research (for example through preregistration, registered reports, pre-prints, or crowd-sourcing); research output management; measures to ensure reproducibility of research outputs; providing open access to research outputs (such as publications, data, software, models, algorithms, and workflows); participation in open peer-review; and involving all relevant knowledge actors including citizens, civil society and end users in the co-creation of R&I agendas and contents (such as citizen science).

⚠ Please note that this question does not refer to outreach actions that may be planned as part of communication, dissemination and exploitation activities. These aspects should instead be described below under 'Impact'.

# Quality of proposal

- **Follow the instructions provided in Application Template Part B;**
  - It is your responsibility to **demonstrate how your proposal addresses the award criteria** as indicated in the call text. The evaluation of your proposal is based on the content you provide in the application form; **be as specific and clear as possible.**  
**No assumptions or requests for additional information will be made.**
- The proposed work corresponds to the description in the Work Programme;
- A **score** in the range from 0-5 will be given to each criterion based on how well the proposal corresponds to the award criteria. Maximum score for a proposal is 15.
- Scores must pass the **individual threshold of 3 AND the overall threshold of 10** if a proposal is to be considered for funding within the limits of the available call budget.

# Quality of proposal - Evaluation (award) criteria

## Three evaluation criteria – equally important!

‘**Excellence**’, ‘**Impact**’ and ‘**Quality and efficiency of the implementation**’.

- Evaluation criteria are **adapted** to each **type of action**, as specified in the WP;
- Each criterion includes the ‘**aspects to be taken into account**’. The same aspect is not included in different criteria, so it is not assessed twice;
  - ✓ Follow Application Template Part B instructions as well as the topic requirements!
  - ✓ See General Annexes section D - Award criteria!
- For **Innovation Actions**, the criterion **Impact** is given a **weight of 1.5** to determine the ranking.

# DOs

- Read carefully the Work Programme
- Pay attention to Call/Topic Conditions
- Read evaluation criteria
- Read FAQs and check for topic updates on the F&T portal
- Mark your proposal as resubmission, if applicable
- Submit as many times as you wish
- Add a speaking title and meaningful abstract as early as possible, to facilitate the organisation of the evaluation

# DON'Ts

- Don't include activities not eligible for funding
- Proposed activities should have an exclusive focus on civil applications
- Do not "try" a proposal that does not match well with the topic
- Do not add information where it does not belong (e. g. in annexes) just to avoid the page limit. Misplaced information will be disregarded.
- Do not upload non-obligatory annexes (support letters etc)

- Don't wait until the last minute

# Submission System - Application Form Part A

Section	Title	Action
1	General information	<a href="#">Show</a>
2	Participants	<a href="#">Show</a>
3	Budget	<a href="#">Show</a>
4	Ethics and security	<a href="#">Show</a>
5	Other questions	<a href="#">Show</a>

- Only one contact per organisation should make changes to the proposal at a time. Editing the form in 2 or more tabs/browsers in parallel will lead to data loss.

# Submission System - Application Form Part A

- For Lump Sum Grants there is an **additional declaration** in General Information;

10) For Lump Sum Grants with a detailed budget table: We understand and accept that the EU lump sum grants must be reliable proxies for the actual costs of a project and confirm that the detailed budget for the proposal has been established in accordance with our usual cost accounting practices and in compliance with the basic eligibility conditions for EU actual cost grants (see [AGA - Annotated Grant Agreement, art 6](#)) and exclude costs that are ineligible under the Programme. Purchases and subcontracting costs must be done taking into account best value for money and must be free of conflict of interest. \*

- For Lump Sum Grants the Budget table provides information only on the total requested grant amount per beneficiary;

No	Name of Beneficiary	Country	Role	Requested grant amount
			Total	

- Annex for Lump Sum Grants** – Detailed budget table

# Submission System - Application Form Part A

## 4- Ethics & Security

- Please go through the tables and indicate which elements concern your proposal by answering **Yes** or **No**. If you answer Yes to any of the questions, please provide additional information in the designated box;
- All reserve list and successful proposals undergo an ethics evaluation
- All successful proposals are security pre-screened and may go to security scrutiny

Ethics Issues Table

1. Human Embryonic Stem Cells and Human Embryos	Page
Does this activity involve Human Embryonic Stem Cells (hESCs)?	<input type="radio"/> Yes <input checked="" type="radio"/> No
Does this activity involve the use of human embryos?	<input type="radio"/> Yes <input checked="" type="radio"/> No
2. Humans	Page
Does this activity involve human participants?	<input type="radio"/> Yes <input checked="" type="radio"/> No
Does this activity involve interventions (physical also including imaging technology,	<input type="radio"/> Yes <input checked="" type="radio"/> No

Ethics Self-Assessment

Ethical dimension of the objectives, methodology and likely impact

Explain in detail the identified issues in relation to:

- objectives of the activities (e.g. study of vulnerable populations, etc.)
- methodology (e.g. clinical trials, involvement of children, protection of personal data, etc.)
- the potential impact of the activities (e.g. environmental damage, stigmatisation of particular social groups, political or financial ad

Does this activity involve non-EU countries?	<input type="radio"/> Yes <input checked="" type="radio"/> No
2. Misuse	Page
Does this activity have the potential for misuse of results?	<input type="radio"/> Yes <input checked="" type="radio"/> No
3. Other Security Issues	Page
Does this activity involve information and/or materials subject to national security restrictions? If yes, please specify: (Maximum number of characters allowed: 1000)	<input checked="" type="radio"/> Yes <input type="radio"/> No n/a

# Annex\* - Information on security issues

- Does not count towards the page limit
- Provided by the proposal submission tool (programme/topic specific settings) and must be completed if the topic is flagged in the work programme or you wish to declare security issues
- **Annotated template** (do not delete any parts but mark as N/A if not relevant for your proposal):
  1. Sensitive information with security recommendation
  2. Classified information, Security Aspects Letter, Security Classification Guide
  3. Security staff, Project Security Officer, Security Advisory Board
  4. Other project specific security measures

Will be **screened** and may lead to **security scrutiny** process

EU Grants: Security issues information (Security section) (HE): V2.1 - 15.06.2022

**INFORMATION ON SECURITY ISSUES (SECURITY SECTION)**

(If part of your Application Form, this section must be pre-filled already at proposal stage (not counted towards the page limit). If not part of the Application Form, it will be provided to you during grant preparation. It will then become part of your Grant Agreement (in Annex 1, Description of Action) and will become binding.)

⚠ Do NOT delete any text. All the subsections should remain but marked as not applicable (N/A) if not relevant for your project.

⚠ In order to fill in the template, please consult first the guidance [How to handle security-sensitive projects](#) and [Classification of information in Horizon Europe projects](#).

Summary of the project security issues

Describe the security issues you identified in your project. Focus on the security subject matters and explain the potential misuse of the research results. Relate to the security-sensitive type of activities as explained in the guidance (see [How to handle security-sensitive projects](#)).

**1. Sensitive information with security recommendation**

If your project involves sensitive information requiring limited dissemination due to security reasons, fill in the 'Sensitive information with security recommendation' table below.

⚠ Please be aware:

- In principle, third parties, [i.e.](#) outside the consortium and the granting authority, should have no access to sensitive deliverables with security recommendation.
- However, when it is known in advance that a specific pre-identified group of recipients/recipients with an established need-to-know exists, you should insert them in the table.
- You should conduct an assessment of the recipients' need-to-know, which should [be made](#) available to the granting authority, if requested.
- The 'Sensitive information with security recommendation' table may be modified throughout the project duration. Any modification can be done only with the prior formal written approval of the granting authority.
- The table below should not include information that is sensitive for non-security related reasons ([e.g.](#) intellectual property or commercial secrets, etc).

# Submission and evaluation of lump sum proposals

# Where to find information on lump sum funding

The screenshot shows the European Commission's 'Funding & tender opportunities' portal. The page title is 'Lump sum funding in Horizon Europe', which is highlighted with a yellow box. The left sidebar contains a navigation menu with the following items: Overview, Guidance (selected), Events, Opportunities, and Background. The main content area is titled 'Guidance' and includes the following sections:

- Guidance**: Guidance on lump sums focuses on the limited number of aspects where lump sum funding deviates from the rules for traditional actual cost grants. This concerns the financial management (e.g., how the lump sum is fixed, and how it is paid). All the non-financial aspects remain the same as in actual cost grants.
- Lump sums – what do I need to know?**: General presentation to get started, including details on how to set up a lump sum budget.
- Quick guide**: The key steps explained and possible concerns addressed.
- Detailed guidance for applicants and beneficiaries**: Lump sum proposal submission, evaluation and grant management.
- Lump sum reporting step by step**: Reporting process for lump sum projects (IT How To).
- Frequently asked questions (FAQs)**: Check if your question about lump sums is already answered.
- Expert briefing**: Briefing for Horizon Europe evaluations, including a dedicated part on lump sums.
- Reference documents**:
  - Lump sum Model Grant Agreement
  - Commission decision authorising lump sum funding
  - Lump sum budget table

- Comprehensive support material available on dedicated [lump sum page](#) on F&T portal - e.g.

# Submission and evaluation of lump sum proposals

- Use the **standard proposal template**.
- Describe in detail the activities covered by each work package.
- To define and justify the lump sum, you need to provide detailed breakdown of cost estimations. The estimates must be an approximation of your actual costs and meet the basic eligibility criteria of Horizon Europe.
- You find the **MS Excel template to prepare your detailed costs estimations** in the submission tool.
- The cost estimations are used to **generate automatically a breakdown of lump sum shares per work package and per participant** (i.e., beneficiaries and affiliated entities, if any).

# Project design – Work packages

## Work packages distribution:

As many as needed but no more than what is manageable

A work package (WP) is a major sub-division of the work plan of your project.

A single activity is not a WP

A single task is not a WP

A % of progress is not a WP (e.g. 50 % of the tests)

A lapse of time is generally not a WP (e.g. activities of year 1)

Work packages with a long duration may be split along the reporting periods (e.g., Management, Dissemination and Exploitation, etc.). In this way, the relevant activities can be paid at the end of the reporting period.

# Example of lump sum breakdown per work package and per beneficiary

	WP1	WP2	WP3	WP4	WP5	WP6	WP7	WP8	Total
<b>Beneficiary A</b>	250.000			50.000	300.000	250.000		300.000	1.150.000
<b>Beneficiary B</b>		250.000	350.000	50.000			100.000	150.000	900.000
<b>Beneficiary C</b>	100.000	100.000		50.000		280.000			530.000
<b>Beneficiary D</b>		120.000		50.000			100.000	150.000	420.000
<b>Total</b>	350.000	470.000	350.000	200.000	300.000	530.000	200.000	600.000	<b>3.000.000</b>

Shares of the lump sum per beneficiary

Share of the lump sum per WP

Lump sum = Maximum grant amount

# Which costs must be covered?

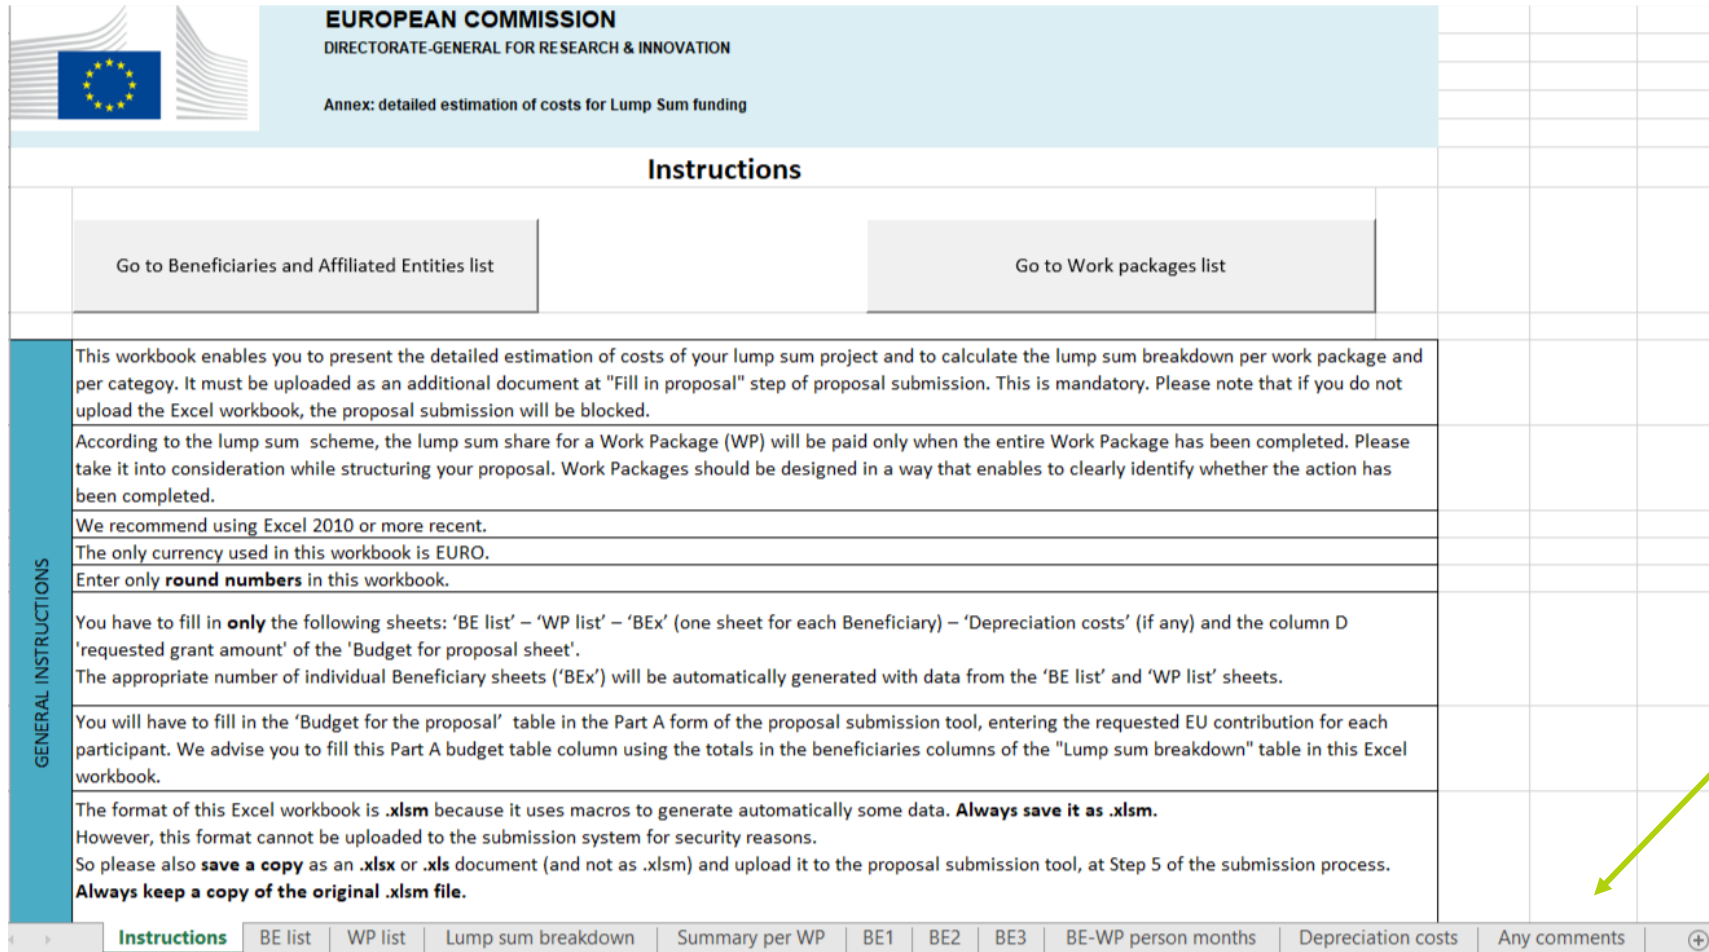

## Cost estimations:

- must be in **line with beneficiaries' normal practices**
- must be **reasonable** / not excessive
- must be **in line with the activities** proposed
- are subject to the basic **eligibility rules** of Horizon Europe (cost estimations can be included only if the same cost item / type of cost would be eligible in an actual costs grant)

## Depending on the type of the action, these costs and categories of costs may be the following:

- **Direct personnel costs:** employees or equivalent (resolved by staff category); natural persons under direct contract; seconded persons; SME owners and natural person beneficiaries
- **Direct subcontracting costs**
- **Direct purchase costs:** travel and subsistence; equipment; other goods, works and services
- **Other cost categories:** financial support to third parties; internally invoiced goods and services; transnational access to research infrastructures costs; virtual access to research infrastructures costs; PCP/PPI procurement costs

# The detailed budget table in practice

The screenshot shows the top part of an Excel workbook. At the top left is the European Commission logo. The header area is light blue and contains the text: "EUROPEAN COMMISSION", "DIRECTORATE-GENERAL FOR RESEARCH & INNOVATION", and "Annex: detailed estimation of costs for Lump Sum funding". Below this is a section titled "Instructions" with two buttons: "Go to Beneficiaries and Affiliated Entities list" and "Go to Work packages list". A vertical blue bar on the left side is labeled "GENERAL INSTRUCTIONS". The main content area contains several paragraphs of text providing detailed instructions on how to use the workbook, including requirements for file format (.xlsm), currency (EURO), and data entry (round numbers). A yellow arrow points from the text "Always keep a copy of the original .xlsm file." to the bottom right corner of the spreadsheet grid. The bottom of the screen shows the Excel tab bar with tabs for "Instructions", "BE list", "WP list", "Lump sum breakdown", "Summary per WP", "BE1", "BE2", "BE3", "BE-WP person months", "Depreciation costs", and "Any comments".

### Instructions

**GENERAL INSTRUCTIONS**

This workbook enables you to present the detailed estimation of costs of your lump sum project and to calculate the lump sum breakdown per work package and per category. It must be uploaded as an additional document at "Fill in proposal" step of proposal submission. This is mandatory. Please note that if you do not upload the Excel workbook, the proposal submission will be blocked.

According to the lump sum scheme, the lump sum share for a Work Package (WP) will be paid only when the entire Work Package has been completed. Please take it into consideration while structuring your proposal. Work Packages should be designed in a way that enables to clearly identify whether the action has been completed.

We recommend using Excel 2010 or more recent.

The only currency used in this workbook is EURO.

Enter only **round numbers** in this workbook.

You have to fill in **only** the following sheets: 'BE list' – 'WP list' – 'BEx' (one sheet for each Beneficiary) – 'Depreciation costs' (if any) and the column D 'requested grant amount' of the 'Budget for proposal sheet'.  
The appropriate number of individual Beneficiary sheets ('BEx') will be automatically generated with data from the 'BE list' and 'WP list' sheets.

You will have to fill in the 'Budget for the proposal' table in the Part A form of the proposal submission tool, entering the requested EU contribution for each participant. We advise you to fill this Part A budget table column using the totals in the beneficiaries columns of the "Lump sum breakdown" table in this Excel workbook.

The format of this Excel workbook is **.xlsm** because it uses macros to generate automatically some data. **Always save it as .xlsm.**  
However, this format cannot be uploaded to the submission system for security reasons.  
So please also **save a copy** as an **.xlsx** or **.xls** document (and not as .xlsm) and upload it to the proposal submission tool, at Step 5 of the submission process.  
**Always keep a copy of the original .xlsm file.**

- Each beneficiary completes one individual sheet. This sheet includes one separate section for each work package.
- For each work package, beneficiaries enter cost estimations under each cost category used.
- For more details on equipment costs, you can refer to the 'Depreciation costs' sheet.

# From individual beneficiary sheets to the lump sum breakdown

- Beneficiaries fill in the beneficiaries list, list of work packages, and individual beneficiary sheets.
- The funding rate must be chosen in line with the type of action: RIA and CSA topics have a 100% funding rate. For IA topics, the funding rate is 70% (except for non-profit legal entities, where a rate of 100% applies). Other funding rates may be specified in the work programme.
- The breakdown of the lump sum per work package and per beneficiary is generated automatically on the basis of the individual cost estimates of each beneficiary.
- In the part A of the application (online forms), applicants have to fill in the ‘Budget for the proposal’ table, entering the requested grant amount for each participant. To do so, use the total amounts per beneficiary in the table ‘Estimated breakdown of the lump sum per work package and per beneficiary’ in the Excel file.

# Uploading the Excel file

- Once you completed the detailed budget table, upload it in the online submission system, as annex to the part B template.

The screenshot shows a web interface for administrative forms. The top section is titled 'Administrative forms (Part A)' and contains three buttons: 'Edit forms' (blue), 'View history' (white), and 'Print preview' (white). Below this is a section titled 'Part B and Annexes' with a descriptive text: 'In this section you may upload the technical annex of the proposal (in PDF format only) and any other requested attachments.' There are two rows of upload fields. The first row is for 'Part B' and the second is for 'Annex - Detailed budget table'. Each row has a red vertical bar on the left, a grey input field, a help icon, and an 'Upload' button with a cloud icon. A red arrow points to the 'Upload' button for the 'Annex - Detailed budget table'.

The format of the Excel template is .xlsm because it uses macros. While you work on it, always save it as .xlsm. Upload the Excel file in .xlsx or .xls format. For security reasons, you cannot upload the file in .xlsm format. Always keep a copy of the original .xlsm file

# Evaluation of a lump sum proposal

- Your proposal will be evaluated by independent experts against the **standard evaluation criteria**: excellence, impact, and implementation.
- The cost estimations will be assessed against the proposed activities under the implementation criterion. Experts will ensure that the estimates are **reasonable and non-excessive**.
- If the experts find overestimated costs, this is recorded in the Evaluation Summary Report.
- This will be reflected in a modified lump sum amount in the grant agreement.

# Thank you!
