Knowledge for tomorrow: DLR exhibits at ILA 2010

11 June 2010

The innovations and results showcased in DLR exhibits at ILA show that the effort is on to improve daily life, in addition to flying. Some exhibits on display are just about to enter the market, still others are in their nascent stages. This image gallery shows shots from the DLR stand in hall 9 at the Berlin air show, ILA.

Quieter and more economical flying

Prometheus: flying in dangerous areas

Smaller and lighter engines

Automated solar cell powered aircraft

Especially resilient: Wing leading edges made of CFRP

Disaster management in a suitcase

Medical treatment with fuel cells

Versatile industrial aerogel

Sending power around the corner

A ship 's pilot in space

Better combustion with ceramics

Emission-free at the airport
