

The 1st BigSkyEarth Training School

April 4 - April 9

German Aerospace Center at Oberpfaffenhofen, Germany

The 1st BigSkyEarth Training School will take place at the German Aerospace Center facilities in Oberpfaffenhofen, Germany, 4-9 April, 2016.

It will gather around 30 researchers for hands-on training on Big Data analytics in astronomy and Earth observation with six expert instructors from the EU and the USA.

The COST Action BigSkyEarth provides grants to 18 trainees from BigSkyEarth member countries for travel and costs of the school attendance.

A detailed report about the training school can be found under:
