

# Clean Sky 2 Core-Partner Template

## Objectives and Guidelines

---

*Clean Sky 2* Information/Consultation Days are currently planned and being organized in several Member States of the European Union and Associated Countries to Horizon 2020 in the November 2013 – March 2014 Period. These are aimed at raising awareness of this proposed future extension of the current *Clean Sky* European Research and Innovation Programme in Aeronautics under the Horizon 2020 Framework Programme.

This template is available to participants of the *Clean Sky 2 Information/Consultation Days* and any interested party eligible under Horizon 2020 in order to enable them to provide both the *Clean Sky* JU and *Clean Sky 2* Leaders with details about the participants' organization and any input they may have for the further elaboration of the *Clean Sky 2* Programme's technical content.

By completing the template, interested parties will enable the *Clean Sky* JU and the Programme's proposed Leaders to consider inputs for the next stage of development of the *Clean Sky 2* Proposed Technical Programme (PTP).

It will also be used in order to:

- keep a concise record of information provided during the consultations sessions held at Info Days between any parties interested in applying as Core-Partners of *Clean Sky 2* and the proposed *Clean Sky 2* Leaders;
- Prepare the future definition of Core-Partner strategic topics

The *Clean Sky* JU recommends that all interested parties fill the present template and send a copy to the CS2 mail box – [cs2@cleansky.eu](mailto:cs2@cleansky.eu) – with <<CS2 Info Days/"name of your organisation">> quoted in object.

The CS2 mail box - [CS2@cleansky.eu](mailto:CS2@cleansky.eu) - can also be used to forward any questions related to *Clean Sky 2*. Finally, last updated information on *Clean Sky 2* can be found on the *Clean Sky* website: [www.cleansky.eu](http://www.cleansky.eu).

**Information that interested parties should consider before filling in the template:**

---

- *Clean Sky 2* Proposed Technical Proposal (PTP) - released in August 2013
- ITD/IADP/TA presentations (available on the *Clean Sky* website: [www.cleansky.eu](http://www.cleansky.eu))

**Legal Disclaimer**

*The information contained in the template shall not constitute an official expression of interest or application to Clean Sky 2 and shall not constitute or be understood as a pre-selection stage of the future selection process. The official legal basis of Clean Sky 2 is still under approval and the first call is expected to be launched in 2014 (date to be confirmed).*

*Information provided hereby by potential applicants as Core-Partners is not protected and could be used for the preparation of topics without any claims. The author of the present template shall not report any sensitive proprietary information or data. The Clean Sky JU shall not be considered liable for any information or data reported therein not adequately protected by its author.*

## Organization Profile

(Maximum 1 page)

- 
- a) Describe your Company / Research Institution / University / Other:
- Name and type of organisation (Enterprise or SME, Research establishment / Public Body or University);
  - Contact details (name and role in organisation of **the contact person**);
  - Country and location of units to be considered for involvement in the proposed *Clean Sky 2* aeronautical JTI;
  - Business area, turnover or annual budget and budget dedicated to R&D at the relevant business unit level.
- b) Experience in relevant large-scale research and innovation programmes:
- With *Clean Sky* and/or EU funded research activities within the Framework Programmes;
  - Where relevant experience in national research programmes within the EU or FP7 Associated States.
- c) Field of competencies with specific attention to those relevant to the scope of *Clean Sky 2* and a brief description of track record / experience in these fields.

**Proposed involvement as “Core-Partner” in *Clean Sky 2***

**(Maximum 2 pages/ITD or IADP)**

---

Based on information distributed on the proposed *Clean Sky 2* Programme, describe how your proposed activities might be linked to the CS2 PTP (references to ITD/IADP/TA and WBS, sub-tasks).

Describe what could be your technical contribution to the PTP (scope, contribution and timeline) and the expected benefits (environmental, societal, industrial competitiveness, mobility).

**Proposed involvement as “Core-Partner” in *Clean Sky 2***

**(Maximum 1 page)**

*Optional and only if relevant with respect to the ITD/IADP/TA Objectives:*

---

Do you see any additional strategic research activity that could help meet the high-level goals of the ITDs, IADPs, and/or TAs, and that is not yet described or covered in the current *Clean Sky 2* PTP? If yes, please describe.

**Proposed budget and organization for CS2 Participation**

**(Maximum 1 page)**

Based on a minimum of 5M€ of in-kind contribution requested for becoming a Core-Partner, provide a rough order of magnitude of the proposed level of contribution that your organization may consider to invest (cluster or individual participation).
